Hotel Ara. Waitress.

2014 - 2015
Internship: daycare

ME AS A DESIGNER

"I am a sensitive individual who wants to transform the ordinary into remarkable tangible memories."

I collect wherever I am. Stones, shells, caps, moments. They intrigue me. Together they form compositions. Perhaps the most beautiful compositions are created accidentally? My preoccupation to collect all kinds of materials feeds my ever-growing enthusiasm, and I am continually developing my knowledge. My curiosity and inquisitiveness nourish my urge to experiment and acquire new knowledge.

The sensory is important to me. Based on smell, material, colour and touch I make memories tangible and allow a moment in time to linger. Something that seems ordinary to most, is often something special to me. I would like to share this amazement! I work investigatively and intuitively. With my eye for detail, observation and perception are important to me as a designer.
